

CLEVELAND BAY HORSE SOCIETY STALLION LICENSING PROCEDURE EXPLANATORY NOTES

Currently there are **3** types of stallion licence issued by the Society

- 1 **BASIC LICENCE** – all colts must have at least a Basic Licence if their progeny out of a mare entered in the full stud book or Grading register are to be eligible for registration in the full stud book/ Grading register.

The granting of a Basic Licence is subject to a satisfactory veterinary report as determined by the CBHS. The Society can exercise its discretion to require an inspection where it considers it appropriate, and can revoke the licence at any time when the Society feels that the best interest of the breed will be served. An endoscope inspection is not mandatory but is left to the discretion of the vet i.e. if it is the only way he can properly assess the horse's wind.

A Basic Licence is issued only as proof of breeding and veterinary soundness at the time of the veterinary inspection. **It is not an indication of the quality of the horse or its compliance with the Breed Standard.**

- 2 **BREED QUALITY APPROVED LICENCE** – owners can put stallions forward at any time for Breed Quality Approval once their fertility has been established and they have stock on the ground. An application for QA will often follow on from the grant of a basic licence to a young colt in a previous year but this is not a prerequisite.

This licence is a seal of approval from the Breed Society in terms of the quality of the horse and therefore will only be granted after a full inspection by the Horse Assessors. A QA licence will only then be granted for life following the Horse Assessors' recommendation and acceptance by the Breed Committee.

Only QA stallions are eligible for the King George V Cup competition.

- 3 **PART BRED LICENCE** – A Part Bred Licence is awarded to CBHS registered part bred stallions and are subject to the same Veterinary and Society inspections as that for a Pure Bred stallion.

All fees including that for the Veterinary inspection is the responsibility of the owner and there is no funding available from the Society or via any grant fund.

The progeny of a Part Bred Licenced stallion will be eligible for registration in the Part-Bred Register ONLY if at least one great grandparent is entered with a name and a number in the CBHS Pure Stud Book.

The CBHS reserves the right, at any time, to assess any horse that is the subject of an application for licence or has an existing licence of any type.

INITIAL INSPECTION - a colt may be licensed from 28 months of age subject to a satisfactory vet report from a veterinary surgeon appointed by the Society.

An endoscopic examination is no longer mandatory but can be used at the discretion of the vet i.e. if he has any doubts or it is the only way he can assess the horse's wind. If used the cost of the endoscopic examination will be borne by the colt owner.

The application fee for the initial licence is £25 for UK applicants and the applicant is responsible for the veterinary fees. There may be grants available from the HBLB. Please check with the Society.

For Overseas applicants the fee is £25 and the applicant is responsible for the veterinary fees.

APPLICATIONS FOR BREED QUALITY APPROVAL – an owner of a stallion with a Basic Licence can put their stallion forward at any time for Breed Quality Approval once their fertility is proven.

For these subsequent inspections a fee of £50 (UK applicants) £25 (Overseas applicants) is payable to the Society. (In the case of UK applicants this will increase to £100 if the applicant requests a home visit rather than taking the horse to an inspection centre.)

If the stallion is not successful the application can be repeated by the owner in following years.

The above guidance notes are to read in conjunction with the Society's, Rules and Conditions for Stallion Licensing. Any queries should be referred to the Secretary.

STALLIONS GRADED OR LICENCED WITH ANOTHER BODY

CBHS consider successful attainment of a breeding licence which requires the satisfaction of more strict veterinary standards than those which CBHS requires to be sufficient to fulfil the veterinary inspection requirement of the CBHS basic stallion licence examination, provided that the full veterinary report completed for the other registry is shared with the CBHS Breed Committee, and all other aspects of the application for the basic breeding licence are completed as for other applicants. The application and Vet report must be submitted to the CBHS within **3** calendar months of the original vet inspection carried out for the other registry.

Breed Committee
January 2019

RULES AND CONDITIONS FOR STALLION LICENSING

1. ALL STALLIONS

All pure and part-bred Cleveland Bay stallions must comply with these regulations if their progeny is to be eligible in the Registers of the Cleveland Bay Horse Society.

2. APPLICATION FORM:

A Licensing Application Form must be completed and returned to the Cleveland Bay Horse Society together with the appropriate fees

3. VETERINARY EXAMINATION

All stallions must be examined by a Veterinary Surgeon approved by the Society
For a Basic Licence colts may be inspected from 28 months old upwards by a veterinary surgeon approved and selected by the CBHS. The costs of the vet's fees for a Basic Licence are the responsibility of the applicant both for UK and overseas applicants and for pure and part bred applications. In all cases, any subsequent inspections will be charged to the owner. There may be grants available from the HBLB for UK members. Please check with the Society.

An endoscope is not mandatory but is left to the discretion of the vet i.e. if it is the only way he can properly assess the horse's wind. If an endoscopic examination is used the cost of this will be borne by the colt owner.

4. SOCIETY INSPECTION FOR BREED QUALITY APPROVAL (QA)

All applicants for QA are subject to inspection by the Society's Assessors, or their authorised deputies, for breeding, fertility, blood lines, conformation, type and soundness.

The Assessors' report will be forwarded to the Breed Committee. The Breed Committee's decision will be final and binding but, if turned down, the applicant may present the stallion for inspection the following year.

5. APPEALS PROCEDURE

The Owner may appeal, to the Council of the Society, against rejection. The appeal fee is £100 refundable if successful or at the Council's discretion.

Vet's and other fixed costs necessary for the appeal will be charged to the Appellant.

If a horse is rejected the owner may follow these alternative procedures:-

5.1 Present the horse for examination in subsequent years on paying the proper fees
or

5.2 Appeal in writing to the Council of the Society who will consider the written evidence put forward; and their decision will be final and binding on all parties.

The Council will not consider any appeal until the fee of £100 has been paid in full.

6. ASSESSMENT CENTRES:

These will be selected by the Society depending on the number and location of applications each year.

7. DNA ANALYSIS

All stallions must be DNA analysed before being licensed and the results placed on the Society's confidential records at the Animal Health Trust, Lanwades Park, Kentford, Newmarket, Suffolk, CB8 7UU

DNA analysis is to be carried out at the owner's expense.

8. COVERING CERTIFICATES

A book of Covering certificates will be issued by the Society, on request, to Stallion owners which can be used for more than one stallion and used for more than one breeding season. A certificate must be issued for every mare covered.

8.1 ARTIFICIAL INSEMINATION

Stallions being used for A.I. must comply with the Society's A.I. rules and conditions. The A.I. certificate must be completed in all cases. Forms are available from the Society. The DNA of both sire and dam is obligatory.

8.2 SWABTEST

The Society recommends that all stallions be swabbed and that each mare owner is advised to make their own enquiries into, and satisfy themselves of, the health status of the stallion and the premises.

9. RETROSPECTIVE COVERING CERTIFICATES

A colt may be used without approval at the owner's risk.

An application to license a colt should be made at 28 months of age and, if approved, covering certificates will be issued retrospectively. If not approved no certificates will be issued and any progeny will not be eligible for registration in the main stud book.

All applications for stallion licencing should be made to The Cleveland Bay Horse Society, P.O. Box 298, Crook, DL14 4GT, email info@clevelandbays.co.uk
